Announcement from the Chair

Chair Cleaver noted that the Academic Senate Office had received an unprecedented number of applications for Individual Investigator grants. He explained that Senate staff had conducted careful screening of all applications to ensure that applications complied with published guidelines. He noted also that current guidelines for application are unclear and favor applications submitted in areas of basic science. There will be an additional summer meeting of the Committee at which guideline changes will be discussed.

Chair Cleaver also noted that review of the Petition Not to Accept Funding from the Tobacco Industry had been discussed at a recent meeting of the Coordinating Committee. Review of this petition is ongoing and will continue in the year 2002-2003. Further details of the petition are available from the Office of the Academic Senate.
