Hospital Replacement Task Force Suggested Questions for Faculty Participating in Focus Groups with Consultants

Please think about these issues in the context of your own teaching, clinical duties and research at UCSF:

1. What is the impact of multiple sites, including Mission Bay, on your ability to provide teaching, clinical training, and patient care? (Include issues arising from geographic separation.)

2. What should be the balance between primary care and subspecialty care (tertiary care) at UCSF (Parnassus, Mount Zion, and Mission Bay)?

3. Should Mission Bay become the site of a specialty hospital? If so, for what specialties?
