Academic Senate Committee on Research
Call for Nominations
7th Distinguished Clinical Research Lecture

The Academic Senate Committee on Research is now accepting nominations for the 7th Distinguished Clinical Research Lecture. Each year this distinction proudly acknowledges the outstanding clinical research achievements made by a member of the Faculty of UCSF. Faculty members are asked to consider the contributions of their colleagues so that the University community may recognize their achievements.

Criteria for Nomination/Selection:
A distinguished UCSF Faculty member who:

1. Has conducted patient-oriented research at UCSF.
2. Has a substantial scholarly record and an international reputation.
3. Has had marked impact on the UCSF community with regard to patient-oriented research (e.g. mentorship of others, leadership of research units, etc.)
4. Is an exceptional or even inspirational individual.
5. Has not been honored with a similar UCSF-wide recognition.
6. Is a member of any UCSF school or department.
7. Has conducted clinical research which has had a major impact on patient care or public health.

How to Submit a Nomination:

An original and twenty-seven (27) copies of the following information must be received in the Academic Senate Office, Room MUE 253, Box 0764 no later than Wednesday, May 30, 2007 at Noon.

- A letter of nomination.
- A one-page summary of the most outstanding achievements of the candidate’s scientific/clinical research career.
- A current curriculum vitae for nominee.
- Three letters of support from individual UCSF faculty only.
- Four representative reprints of the candidate’s publications.

In February of 2001, the Assistant Dean for Clinical Research, the Dean of the School of Medicine, and the Executive Vice Chancellor for Research proposed to the Academic Senate establishment of an annual UCSF Lectureship in Clinical Research to parallel the current UCSF Faculty Research Lectureship to recognize the strong, growing faculty devoted to clinical investigation, outcomes research, and health services research. Since a number of faculty members have made advances and contributions that have had major impact on medicine and health policy, they deserve recognition. Stimulated by this proposal, the Committee on Research agreed to:

*Select a UCSF faculty member who has made a distinguished record in clinical research, to deliver a lecture upon such topic as he or she sees fit. The confirmed member is to be designated the “Distinguished Clinical Research Lecturer.”*

The Committee agreed that the lectureship would be bestowed upon someone who:

1. has conducted patient-oriented research at UCSF;
2. has had a substantial scholarly record and an international reputation
3. has had a marked impact on the UCSF community with regard to patient-oriented research (e.g. mentorship of others, leadership of research units, etc.) – an exceptional or even inspirational individual
4. has not been honored with a similar UCSF-wide recognition
5. is a member of any UCSF school/department

The Committee on Research solicits recommendations from department chairs, directors of institutes, and members of the Senate.
