<tr>
<td>1.01</td>
<td>N197 Group Independent Study</td>
<td>1-5U</td>
<td>Lab 3-15 hours; Description: Students collaborate in clinical investigation and study special problems related to nursing and health sciences under the direction of faculty. Students may select topics for study related to their area of interest.</td>
<td>Staff</td>
<td>Fall, Winter, Spring, Summer</td>
<td>Course no longer offered.</td>
</tr>
<tr>
<td>1.02</td>
<td>N214A Community-Based Long Term Care</td>
<td>1-2U</td>
<td>Seminar 1 hour; Optional field work 3 hours; Description: Course analyzes empirical research and theory dealing with non-institutional approaches to long-term care. Examination of patient characteristics and needs, models of service delivery, factors affecting service utilization, and nurses’ roles in provision and management of community-based long-term care.</td>
<td>Laura Reif</td>
<td>Spring</td>
<td>Course no longer taught. Faculty retired.</td>
</tr>
<tr>
<td>1.03</td>
<td>N214B Institutional Care of the Aged</td>
<td>2-3U</td>
<td>Seminar 2 hours; Optional field work 3 hours; Description: Course uses a theoretical, historical, and cross-cultural approach to focus on issues, problems and trends in institutional care of the elderly. Research studies will be discussed and analyzed, and the health professionals’ role in providing care will be explored.</td>
<td>Jeanie Kayser-Jones</td>
<td>Winter</td>
<td>Course no longer taught.</td>
</tr>
<tr>
<td>1.04</td>
<td>N232.03 Geriatric Pharmacology</td>
<td>1U</td>
<td>Lecture 1 hour; Description: Course focuses on the clinical application of pharmacology in the management of older adults in ambulatory and nursing home settings. Emphasis is on case discussions and student participation.</td>
<td>Carole Deitrich</td>
<td>Spring</td>
<td>Ron Finley</td>

<tr>
<td>N232.04</td>
<td>Pediatric and Neonatal Pharmacology</td>
<td>2U</td>
<td>2</td>
<td>Lecture 2 hours; Description: Course provides systematic presentation of the clinical application of pharmacologic interventions commonly prescribed for healthy and sick infants and children in varied health care environments. Emphasis is placed on the integration of pharmacologic interventions as a component of advanced practice nursing.</td>
<td>Naomi Schapiro</td>
<td>Spring</td>
</tr>
<tr>
<td>N236B</td>
<td>Exploring Indigenous Healing</td>
<td>2U</td>
<td>2</td>
<td>Lecture 2 hours; Description: A survey course covering indigenous healing principles and practices, designed to enhance nursing practice in a variety of settings by increasing cultural sensitivity and awareness and offering exposure to indigenous healing practices.</td>
<td>Judith Sweet</td>
<td>Winter</td>
</tr>
<tr>
<td>N260C</td>
<td>Global Health Issues</td>
<td>3U</td>
<td>3</td>
<td>Lecture 3 hours; Description: Course examines selected world health issues in a framework of community oriented primary health care. Focus is on global issues such as development, environment, nutrition, population, international organizations, and nursing roles in international health.</td>
<td>Juliene Lipson</td>
<td>Spring</td>
</tr>
<tr>
<td>N261</td>
<td>Mental Health Nursing and the Law</td>
<td>2U</td>
<td>2</td>
<td>Lecture 2 hours; Description: Course reviews history and development of mental health legislation and decisional law in the U.S. and California. Explores current mental health laws as they relate to and influence the practice of psychiatric nursing in the public and private sectors.</td>
<td>Gail Gresham</td>
<td>Winter, Spring</td>
</tr>

</table>
1.09  **N287C Strategic Marketing Management 3U**
Lecture 3 hours; Description: Course includes a comprehensive examination of strategic marketing theories and research. Emphasis is placed on organizational planning, creation of business plans and financial feasibility both inside and outside the organization, market research, development of joint ventures and multi-institutional projects.

FOR: Catherine Waters  
Offered: Spring

Remarks: Content deemed to be redundant with material covered in N234 & N287A.

1.10  **N287H Clinical Research Management II 3U**
Lecture 3 hours; Description: The role of the Clinical Research Nurses in managing the conduct of research is analyzed. Emphasis is on roles and responsibilities involved in clinical research management through analysis and application of organizational, legal, and ethical concepts.

FOR: Carmen Portillo  
Arlene Rosenzweig Kitterman  
Offered: Spring

Remarks: Course no longer being taught.

1.11  **N288D Critical Care/Trauma Proseminar 1U**
Seminar 1 hour; Description: Course introduces advanced practice roles in critical care and trauma settings overviewing the economic, political, legal, and professional influences on practice outcomes.

FOR: Kathleen Puntillo  
Offered: Winter

Remarks: Course content integrated into other courses.

1.12  **N293C Abstraction and Modeling III 3U**
Lecture 3 hours; Description: Course increases a student’s unified Modeling Language (UML) reading and writing skills to the point where they can critically review both specific models and the literature regarding the application of UML to understanding complex healthcare systems. In addition, the course focuses on two aspects of advanced visual modeling: 1) the specification of model constraints (i.e., domain-specific Business Rules) using the UML’s Object Constraint Language (OCL) and 2) the inclusion of known architectural “patterns”.

FOR: Charles Mead  
Offered: Spring

Remarks: Course no longer being taught.
II. Change in Courses – FOR/Quarter Changes

2.01 N142 Introduction to Nursing 11U
Current FOR: Mary Scott, PN
Proposed FOR: Jane Perlas, PN/Pamela Bellefeuille, PN
Quarter Effective: Summer 2007
Remarks: FOR change

2.02 N144 Adult Medical/Surgical/Geriatric Nursing 13.5U
Current FOR: Mary Scott, PN/Lisa Day, PN
Proposed FOR: Jane Perlas, PN/Pamela Bellefeuille, PN/Lisa Day, PN
Quarter Effective: Fall 2006
Remarks: FOR change

2.03 N210A Introduction to Healthcare Informatics 3U
Current FOR: Jean Ann Sengo, CHS/Michelle Tellez, CHS
Proposed FOR: Dean Wantland, CHS
Quarter Effective: Winter 2007
Remarks: FOR Change

2.04 N212A Qualitative Data Collection & Ethics 2U
Current FOR: Janice Humphreys, FHCN/Teresa Juarbe, FHCN
Proposed FOR: Janice Humphreys, FHCN/Elizabeth Davies, FHCN
Quarter Effective: Spring 2007
Remarks: FOR Change

2.05 N217A Care of High-Risk Population I 2U
Current FOR: Erica Monasterio, FHCN
Proposed FOR: Jerusalem Makonnen, FHCN
Quarter Effective: Spring 2007
Remarks: FOR change

2.06 N220.01 Academic Role Preparation I 1U
Current FOR: Margaret Wallhagen, PN/Dorothy Fontaine, PN
Proposed FOR: Mary Blegen, CHS/Dorothy Fontaine, PN
Quarter Effective: Fall 2006
Remarks: FOR change
2.07  **N220.02 Academic Role Preparation II 1U**
Current FOR: Nancy Stotts, PN/Dorothy Fontaine, PN
Proposed FOR: Mary Blegen, CHS/Dorothy Fontaine, PN
Quarter Effective: Fall 2006
Remarks: FOR change

2.08  **N236A Complementary Healing 3U**
Current FOR: Judith Sweet, CHS
Proposed FOR: Catherine Kelber, CHS
Quarter Effective: Fall 2006
Remarks: FOR change

2.09  **N240.01 Biomarkers I 2U**
Current FOR: Marylin Dodd, PN
Proposed FOR: Roberta Oka, CHS
Quarter Effective: Fall 2006
Remarks: FOR change

2.10  **N240.04 Violence & Health 2U**
Current FOR: Abbey Alkon, FHCN
Proposed FOR: Janice Humphreys, FHCN
Quarter Effective: Spring 2007
Remarks: FOR change & change in quarter from Fall to Spring

2.11  **N240.16 Gerontological Nursing Research 2U**
Current FOR: Jeanie Kayser-Jones, PN
Proposed FOR: Margaret Wallhagen, PN
Quarter Effective: Winter 2007
Remarks: FOR change

2.12  **N245.04A Pediatric Health Promotion & Protection 1U**
Current FOR: Mary Lynch, FHCN
Proposed FOR: Angel Chen, FHCN
Quarter Effective: Winter 2007
Remarks: FOR change

2.13  **N257 Assessment/Management of Common Psychiatric Symptoms 2U**
Current FOR: Linda Chafetz, CHS
Proposed FOR: Bethany Phoenix, CHS
Quarter Effective: Fall 2006
Remarks: FOR change

2.14 N259.04 Contraception in Primary Care 1U
Current FOR: Tamara Ooms, FHCN
Proposed FOR: Jerusalem Makonnen, FHCN
Quarter Effective: Winter 2007
Remarks: FOR change

2.15 N260D Latino Health & Culture 2U
Quarter Effective: Summer 2007
Remarks: Change in quarter from Fall and Summer to Summer only

2.16 N267.01 Ethical Issues in Nursing Practice 3U
Current FOR: Patricia Benner, SBS
Proposed FOR: Mary Sutphen, SBS
Quarter Effective: Winter 2007
Remarks: FOR change

2.17 N271.02 Special Problems in Family Primary Care 2U
Current FOR: Catherine Chesla, FHCN
Proposed FOR: Erica Monasterio, FHCN
Quarter Effective: Winter 2007
Remarks: FOR change and change in quarter from Winter to Spring

2.18 N282B Nurse-Midwifery Complications II 4U
Quarter Effective: Spring 2007
Remarks: Change in quarter from Winter to Spring

2.19 N287E Advanced Financial Management 3U
Current FOR: Joanne Spetz, CHS
Proposed FOR: Jane Hirsch, CHS/Jeannine Seago, CHS
Quarter Effective: Spring 2007
Remarks: FOR change

2.20 N289A Advanced Quantitative Research Methods 3-5U
Current FOR: Abbey Alkon, FHCN
Proposed FOR: Abbey Alkon, FHCN/Joanne Spetz, CHS
Quarter Effective: Fall 2006
Remarks: FOR change

2.21 N292A Physiology of Pregnancy 2U
Quarter Effective: Spring 2007
Remarks: Change in quarter from Fall to Spring

2.22 NU218 Nutrition Principles Across the Lifespan 2U
Current FOR: Patricia Sparacino, FHCN
Proposed FOR: Kathryn Clark, FHCN
Quarter Effective: Winter 2007
Remarks: FOR change

2.23 S207 Sociology of Health & Medicine 3U
Current FOR: Carroll Estes, SBS
Proposed FOR: Janet Shim, SBS
Quarter Effective: Winter 2007
Remarks: FOR change

2.24 S208 Sociology Psychology of Health & Illness 3U
Current FOR: Howard Pinderhughes, SBS
Proposed FOR: Janet Shim, SBS
Quarter Effective: Spring 2007
Remarks: FOR change & change in quarter from Winter to Spring

2.25 S222 Health Care Economics & Policy 3U
Current FOR: Charlene Harrington, SBS
Proposed FOR: Joanne Spetz, CHS
Quarter Effective: Winter 2007
Remarks: FOR change and change in quarter from Spring to Winter

2.26 S260 Policy & Politics of Health 2-5U
Quarter Effective: Winter & Spring
Remarks: Change in quarter from Winter & Spring to Fall, Winter & Spring

Consent Calendar

2.27 S285B Qualitative Methods II: Analysis 5U
Current FOR: Adele Clarke, SBS/Catherine Chesla, FHCN
Proposed FOR: Adele Clarke, SBS/Holly Kennedy, FHCN
Quarter Effective: Winter 2007

Remarks: FOR change

III. Change in Courses

3.01 N242B HIV/AIDS: Clinical Pharmacology 1U
Lecture 1 hour; Prerequisites: None; Restrictions: Class size limited to 30 participants;
Description: Course will introduce the clinical application of pharmacology in the
management of HIV-infected adults and adolescents based on the current U.S. CHHS
Treatment guidelines for Antiretroviral Therapies and the Prevention of Opportunistic
Infections.

FOR: Suzan Stringari-Murray Offered: Fall, Spring

Remarks: Change to restrict the class size to 30. In addition, course is to be offered
in the Spring as well as the Fall quarters in order to accommodate students.

3.02 N262.01 Research Utilization in Acute and Chronically Ill Adults 2U
Lecture 1 hour; Seminar 1 hour; Prerequisites: Successful completion of N262A;
Restrictions: None; Description: Course develops skills in systematic analysis, critical
appraisal and synthesis of research related to a selected clinical nursing problem in adult
acute care and chronically ill patients. Students will explicite an evidence-based solution
to the selected clinical practice problem or issue and develop a preliminary plan to translate
the evidence into practice that engages stakeholders and clinicians in a particular
microsystem.

FOR: Nancy Donaldson Offered: Spring
Susan Shapiro

Remarks: Change of Faculty of Record and refreshing of course description and
objectives. Assignments strengthened to emphasize application of course
content.

Consent Calendar
February 17, 2006
Page 9

3.03 N273B Issues in Occupational Health 1U
Seminar 1 hour; Prerequisites: None; Restrictions: None; Description: For this course,
students attend six Occupational Medicine Grand Rounds (or equivalent), in addition to
seminars. Requirements include: written summary and critique of Grand Rounds sessions,
research critique of at least two occupational and environmental health related studies; attendance at seminar sessions, and class participation.

FOR: Rossana Segovia-Bain  Offered: Fall

Remarks: Course grade choice should have been listed as satisfactory/unsatisfactory. This form is being submitted to correct that error. Faculty of Record change is requested due to faculty shift in duties.

IV. Courses

4.01 **N213C Chemotherapy Seminar 2U**  
Lecture 1 hour; Seminar 1 hour; Prerequisites: None; Restrictions: Non-oncology graduate nursing students need consent of instructor; Description: Course designed to familiarize the advanced practice nursing student with current topics in cancer chemotherapy, i.e., newly approved agents, new drug combinations, clinical trials. In addition, identification of unusual side effects and management of same, as well as safety issues will be addressed.

FOR: Theresa Koetters  Offered: Winter 2007

Remarks: This course is a modified version of CP 155.50: Oncology Seminars.

4.02 **N215.01 Global Community Health Planning & Interventions 3U**  
Lecture 3 hours; Prerequisites: None; Restrictions: None; Description: Course introduces students to community-based models and principles. Examples include community-based participatory research (CBPR) and WHO models that shape research and intervention approaches in developing partnerships with communities. This course will also introduce students to the key elements of proposal development as a means to support community interventions.

FOR: Carmen Portillo  Offered: Winter

Remarks: The course complements N215 for students enrolled in the Advanced Community Health and International Nursing specialty program.

4.03 **N240.19 Quality & Safety of Patient Care 3U**  
Seminar 3 hours; Prerequisites: Doctoral student status; Restrictions: None; Description: Seminar will focus on research that identifies problems with the quality and safety of patient care through reading original research reports and compilation and reviews of this work. Students will select a recommendation for improvement, thoroughly review and
critique the research base underlying it, and suggest possible research projects that would implement the recommendation and evaluate the impact.

FOR: Mary Blegen Offered: Spring

Remarks:

4.04 N283H Pediatric Palliative Care 1U
Seminar 1 hour; Prerequisites: consent of instructor; Restrictions: None; Description: Course presents the End-of-Life Education Consortium (ELNEC) module for pediatrics training in pediatric end-of-life care. The ELNEC training focuses on pediatric palliative care concepts and teaching strategies.

FOR: Elizabeth Davies Offered: Spring

Remarks: This is a new course for the Acute Care Pediatric Nurse Practitioner (ACPNP) specialty.

4.05 N283.03 Common Pediatric Illness Seminar 1U
Seminar 1 hour; Prerequisites: Successful completion of N245.04 and concurrent enrollment in N404.02, N245, N283B & N232.04A or consent of instructor; Restrictions: Limited to Advanced Practice Pediatric Nursing (APPN) and post-masters students or consent of instructor; Description: Through discussion of case studies, seminar provides opportunity for first year Advanced Practice Pediatric Nursing Program students the opportunity to synthesis and apply principles of pediatric pathophysiology, pharmacology, symptom assessment and management. Classroom activities and assignments will emphasize differential diagnosis of common acute pediatric illness and provide practice in documentation and oral case presentation.

FOR: Angel Chen Offered: Spring

Remarks: Course was previously taught as N248 (Spring 2006), now request for permanent course number.
