Collaboration at UCSF

AND SOME TOOLS TO FACILITATE IT

Michele Mizejewski
Emerging Technologies Specialist
UCSF Library
February 13, 2009

Collaboration

- **collaborate** (v): to work together with others to achieve a common goal

- Who is collaborating?
  - Researchers
  - Clinicians
  - Teachers
  - Students

- Technology tools can make it easier to connect with colleagues regardless of location
Tools for Collaboration

- **RefShare**: Share RefWorks references globally for collaborative research
- **Wiki@UCSF**: Easy-to-edit web sites for sharing files and writing collaborative documents
- **BiomedExperts**: The first literature-based scientific social network

See: [http://library.ucsf.edu/research/collaboration/](http://library.ucsf.edu/research/collaboration/)

**Using the Wiki**

A wiki is a website that lets people collaborate and share information quickly ("wiki" is the Hawaiian word for "fast"). This wiki is powered by Confluence software. It is organized into collaboration areas called spaces which contain pages, attachments, and other types of content that can be viewed and edited by users. See the links below for tips on using the wiki, or go to the full Confluence User Guide to search for information. Please note: The links in this introduction and in the "How To..." column take you outside the UCSF wiki. Use the Back button in your browser to return this page.

**How To...**
- Create a New Page
- Edit an Existing Page
- Attach Files to a Page
- Create a Link
- Display an Image on a Page
- Track Updates to the Wiki
- Restore an Older Version of a Page
- Recover a Draft Page

**Special Features**
- Wiki Markup and Macros
- Displaying a Google Calendar
- Importing Excel Data
- Using the News (Blog) Feature
- RSS Feeds

**FAQ/Support**
- Frequently Asked Questions
- Confluence Documentation

**Space Administrators**
- Introduction
- Adding Users
- Permissions
- User Lists
- Look and Feel
- Quick Access to Your Space
- Demonstrating the Wiki
What Are We Missing?

- What are your needs around collaboration
- Which tools do you use?
- Which would you like to learn more about?
