The School of Dentistry Full Faculty Council was called to order by Chair Lee on April 15, 2010 at 12:00 p.m. in room HSW 301. A quorum was present.

Chair’s Report

Reviewed committee charges. Research Committee is not active.
Admissions. Dan Ramos. Diversity has increased. Suffering due to budget, but are still working hard to recruit at places like UC Merced which has 35% URM.

Scholarship Committee. Wu Li. Working really hard to combine funds to offer bigger pots of money. Once they get here, why don’t we have a clearinghouse/portal where a student can apply to all scholarships in one place. Janice suggested getting all of the information to mentors so the mentees can distribute to mentees. Chong suggested posted on CLE/eCommons a central place instead of individual emails.

EPC. Important due to accreditation coming up in 2012. There are 54 competencies put out by ADEA. One of the charges is to go over the 54 competencies and see if our 17 fall within those competencies.

Charge 2: look at outcomes of the D3 D4 change.

Curtis suggested looking at different models for teaching. Lee suggested discussing this at the mid year meeting.

Dean’s Report.
Accreditation. Third report is ready. There will be a site visit shortly. There’s no chance of us not getting accredited. It’s more about doing it correctly and smoothly so we can go on with our business. We are hoping for the max accreditation – 10 years. In Nov 12, we will have a big launch for our CODA accreditation. Will be urging faculty to be involved.

Dept Reports.
